WVB

Analysis Platform

Your single source for quality information on companies & financial institutions worldwide.

INDEPENDENT, UNBIASED & SINGULARLY FOCUSED

INDEPENDENT, UNBIASED & SINGULARLY FOCUSED

WVB Analysis is much more than just a database; it's critical data - meticulously collected, expertly structured, and rigorously verified since 1984

—

DRIVEN BY DATA, NOT OPINION. THAT MEANS NO NOISE. NO BIAS

For over forty years, World'Vest Base (WVB) has been quietly powering the financial world, curating the most comprehensive global database of public companies and bank fundamentals. WVB is an independent business information provider. Why is this important? It means WVB's data is entirely free from external stakeholder influence.

Our mission is to provide you with the accurate and unbiased information you need on the public and private markets to advance your firm's business objectives and effectively do your job.

WVB ANALYSIS - ALL THE INFORMATION YOU NEED, IN ONE PLACE

Transforming Data into Conviction-Grade Insights

WVB Analysis is an intuitive, user-friendly web-based platform integrating best-in-class financial data with powerful search and analysis software

Research, Build & Compare

- Research & investigate individual entities
- Perform in-depth, enhanced due diligence
- Search using user-specific criteria
- Conduct a detailed financial analysis of a single institution
- Seamless cross-border data comparability
- Monitor market indicators
- Visualize your data with graphs and charts

Integrated Analytics & Modeling

- Build resilient, forward-looking investment strategies
- Identify long term market cycles
- Run risk-based assessments
- Perform model validation
- Train and test AI models built on first-party and unstructured data

CAPTURE THE WHOLE PICTURE - FINANCIALS, NEWS, STOCKS, PEOPLE, & EVERYTHING IN BETWEEN

WVB's data is curated by a global team of experts that directly collects information from audited annual and interim reports, as well as a multitude of public sources. We cover 99% of the total global market capitalization, in addition to a fully searchable and growing archive of bankruptcies, reverse acquisitions, delistings, and LBOs

THE WVB DIFFERENCE YOU'RE PARTNERING WITH AN INFORMATION SPECIALIST, NOT JUST A DATA PROVIDER

Proven, Owned Intelligence

Because we source our content directly from original sources, when you use WVB Analysis, your license is directly with WVB, and WVB alone. Whether you're working with our historical data archive for a financial crime investigation or powering internal systems, WVB offers a mountain of data and exclusive market intelligence you can trust.
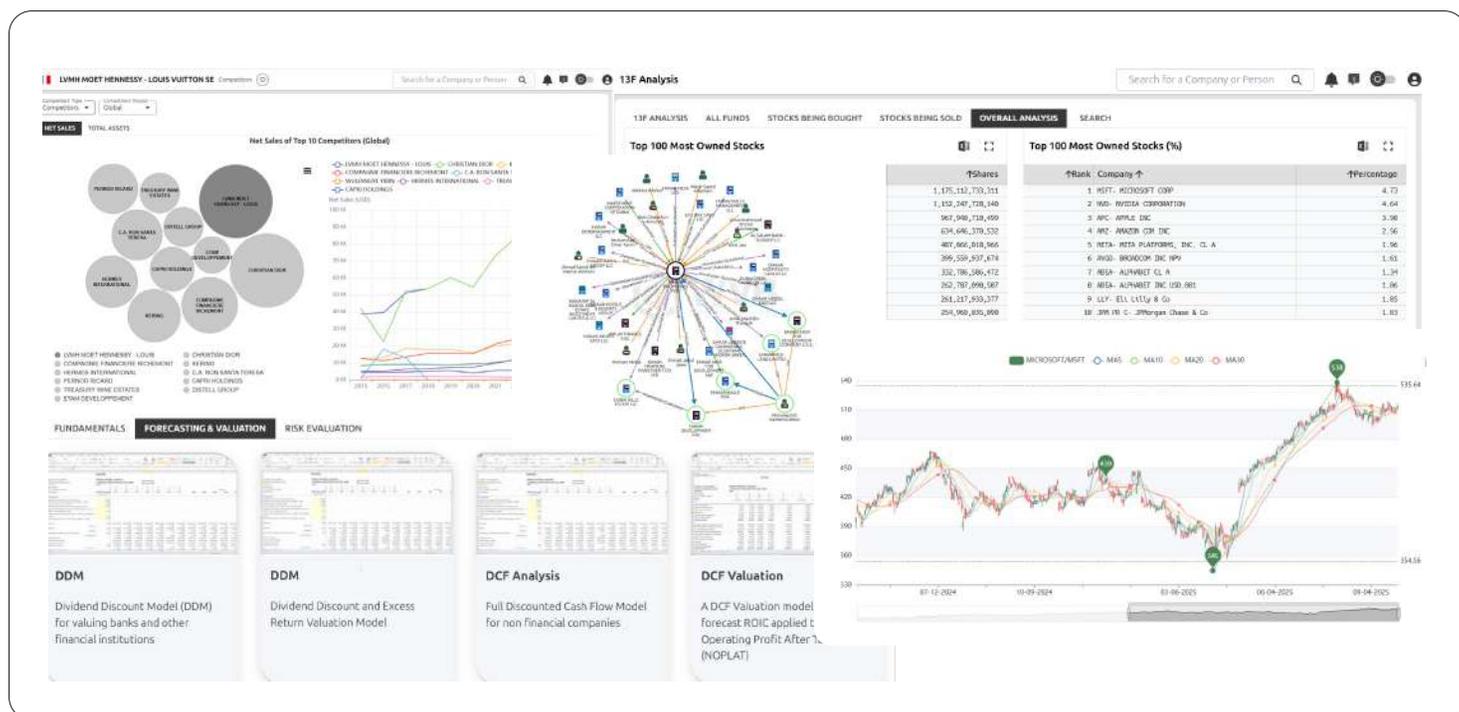

Auditable, Accountable. No Noise. No Bias

In the age of AI, trust in data is critical. For applications like Fraud Detection, Risk Management, and harnessing unstructured data for advanced model training, you need a foundation that is ethically sourced, traceable, and relentlessly accurate. That's what we deliver: a rigorous process, a 99.91% accuracy rate, and a commitment to speed - fulfilling the vast majority of data requests within three days.

Compliance that never expires

We track inactive and dormant companies and banks worldwide - providing the historical insights needed to understand market cycles and reveal patterns of risk and resilience. This comprehensive historical view strengthens due diligence, fraud prevention, and supply chain resilience – it's the critical data point that active markets alone can't show.

Built from the ground up with you in mind

WVB Analysis is built on a unified, wholly owned database structure that has developed over time in response to market needs and changes. As an independent company, we've been able to design our platform from the ground up to leverage the best technology and support your daily workflow.

WVB ANALYSIS FUNCTIONALITY TAILORED TO THE WAY YOU WORK

From protecting your business to optimizing your investments, WVB Analysis has been developed to specifically serve professionals across a wide range of fields, including :

√ Financial crime prevention
√ Credit Risk Management
√ Corporate Finance
√ Investment Portfolio Management
√ Academic Research

√ Competitive Intelligence
√ Corporate Treasury
√ Know Your Customer
√ Tax, Audit & Transfer Pricing
√ Supply chain resilience

Integrating macroeconomic data, company fundamentals, and ready-to-use models in a single workflow, WVB Analysis moves you faster from data to decisions - reliably, repeatably, and at scale:

Portfolio Manager Functionality

To manage regulatory and capital requirements, counterparty risk assessment, and monitor the financial health of key suppliers.

Macroeconomic Data

Supports your predictive analytics and strategic planning efforts, helping you prioritize markets for expansion and uncover hidden growth opportunities.

WVB AI Suite: Analyze and Synthesize

Quickly generate in-depth analysis and summaries from sourced documents - including filings, earnings transcripts, and ESG disclosures. AI Books® uses our own AI summarization engine that converts user prompts into data-backed reports directly from the WVB database. The integrated AI Chat® enhances this process by providing conversational search and instant answers, thereby eliminating the need for typical multi-criteria search steps. The entire suite is built, trained, and securely hosted within our platform.

Models and Scorecards

Advanced pre-built models and scorecards (fully supported by our in-house experts) are calibrated across global markets and integrated with WVB's industrial and banking data.

'Data Management Ready' by Design

Choose between versatile desktop exporting & PDF extraction capabilities, flexible cloud delivery options, or customizable data feeds that can be integrated into your existing internal applications.

Transfer Pricing Benchmarking and Compliance

Powered by WVB's complete data library, our brand-new Transfer Pricing module offers specialised functionality and report templates. These tools are specifically designed to help tax professionals stay compliant with both international and local tax standards, by performing intercompany pricing and analysis of their own transactions with corresponding market standards.

ABOUT WORLD'VEST BASE

—

Best-in-class global financial data tied to local knowledge

Established in 1984, WVB has teams of multi-lingual financial analysts and industry specialists based in eleven cities across Europe, the Middle East, North America, and Asia.

Today, over 2,500 leading corporations, financial institutions, government agencies, and businesses rely on WVB data worldwide.
